

## RJK Properties Recycling Guide

What can be put in recycling cart:

- Clear, green and brown glass bottles
- Plastic types 1, 2, 3, 4, 5, 6 and 7
- Steel and aluminum cans and empty aerosol cans
- Telephone books, newspapers, catalogues, office paper and junk mail

Do not put plastic bags, cardboard or Styrofoam in the recycle cart.

Cardboard should be flattened and put in the big dumpster. Flood Brothers pulls this out for recycling. It takes up too much room in our carts.

In order to maximize space in the carts, please empty the bags in which you collect the stuff into the cart so that the items are loose. If you collect the stuff in paper bags you can then flatten them and put them in the cart separately. Plastic bags need to go in the big dumpster.

Small batteries no longer need to be recycled. Please discard them with your regular garbage

Fluorescent light bulbs should go in the gray bin in the basement. We will take those to the hazardous waste center. Regular light bulbs should go with your regular trash.

There are heavy fines for putting electronic waste in the dumpsters and recycle bins. If you need to get rid of an old TV, computer etc. please contact us and we will direct you.

If you are doing a major purge or are generating a lot of recycling from an apartment based business we would appreciate it if you take that recycling to one of the city-provided drop-off centers rather than dominating a cart that serves the whole building. Contact us if you need more info on this.

Thanks for your cooperation-
